

Part II Organizational Action (continued)

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶
In general, a shareholder's aggregate tax basis in his or her shares immediately prior to the reverse share split should be allocated in proportion to the reduced number of shares under IRC sections 358, 368 and 354.

18 Can any resulting loss be recognized? ▶ For shareholders who held pre-split quantities of shares that were not an exact multiple of 4, the reverse split resulted in the creation of a fractional share. Post-reverse split fractional shares were redeemed for cash and sent to the shareholders' broker of record. This fractional share redemption may cause some shareholders to realize gains or losses. For shareholders who held pre-split quantities of shares that were an exact multiple of 4, no gain or loss would be recognized as a result of this action.

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ▶ The reportable tax year is 2020.
